

High-quality translation services, dedicated to customer service

Woodfield Language Services offers high-quality, professional translations for every market sector and any language you may require.

Our reputation is for delivering quality translations with a personal service from a dedicated team of experienced project managers, at a competitive price. With a global network of highly specialised, native translators at our fingertips, we are able to select the most suitable linguists for your requirements.

Not only can Woodfield Language Services offer translation, but also proofreading, editing, copywriting, typesetting, transcription, voiceover, interpreting, software localisation, e-learning and website localisation. If language is involved, we can offer the service you need!

Why choose Woodfield Language Services?

We know what is important

Communication

We provide a quick response to new enquiries and keep clients updated at all stages.

Confidentiality

All linguists sign a Non Disclosure Agreement as part of our application process. This ensures confidentiality for clients.

Deadlines

Deadlines are important and we respect that. We always confirm deadlines once a linguist is selected, to give our clients peace of mind.

We have a Quality Assurance process

Quality Assurance

All translations have a quality assurance check prior to delivery, carried out by a highly experienced Translation Project Manager.

Consistency

Consistency across translations creates a professional and high-quality impression. To ensure this, we use Translation Memory (TM) to store translated sentences for each client for future translation projects. This also offers costs savings too.

We insist on the best

Mother Tongue Translations

Our linguists only ever translate into their mother tongue and our interpreters are always truly bilingual.

Human, Qualified Linguists

We only use human, qualified linguists, with at least five years of full time translation experience. We never do, and never will, use machine translation.
